

**Österreichische Gesellschaft
für Vakuumtechnik**

Austrian Vacuum Society

Basic Vacuum Technology:

Expertise from gas dynamics to material synthesis - ÖGV members know more.

Experience - "Hands On":

Resourcefulness counts. Find solutions for vacuum related issues in collaboration with the ÖGV.

Transfer of Knowledge:

Members of the ÖGV offer didactic skills - contact the ÖGV for schools and workshops. By awarding prizes the ÖGV supports the career of young scientists.

Application of Vacuum Processes:

ÖGV members apply vacuum on a daily basis. Profit from experience you cannot find in literature or on the web.

Contact to Industry:

Important suppliers of vacuum components and major industrial players are company members of the ÖGV.

International Networking:

The ÖGV is member of the "International Union for Vacuum Science Technique and Applications". Profit from the contacts offered by this international union.
