

The 6th ÖGV – Austrian Vacuum Society Seminar

June 16th 2026

hosted by Busch Austria GmbH

ANNOUNCEMENT & SCOPE

The Austrian Vacuum Society (ÖGV) warmly invites PhD candidates, academic researchers, and industry professionals to participate in the 6th ÖGV Seminar 2026, kindly hosted by the Busch Austria GmbH at their Vacuum Technology Competence Centre in Korneuburg near Vienna.

This event bridges the gap between young scientists and leading industrial partners uniting universities, research institutions, and companies to foster open discussion, knowledge transfer, and collaborations.

PhD students using vacuum technology in their research fields, such as surface physics, thin films and nanostructures are strongly encouraged to present their research. Contributions can be submitted as oral presentations, offering a unique chance to gain visibility, receive expert feedback, and engage with leaders from both academia and industry.

KEYNOTE LECTURE :

“ Nanofabrication and Imaging with Electrons ”

We are honored to announce our keynote speaker:

Prof. Dr. Cornelis (“Kees”) Hagen

Department of Imaging Physics, TU Delft , Netherlands

TU Delft

Prof. Hagen is a world-renowned expert in microscopy and lithography with charged particles, with a specific focus on **Focused Electron-Beam-Induced Processing (FEBIP)** and resist-based electron beam lithography for fabricating nanostructures. His research bridges fundamental physics and practical applications, contributing significantly to the understanding of materials at the nanoscale. With extensive experience in both academic research and interdisciplinary collaboration, he will provide valuable insights into the role of cutting-edge imaging in modern vacuum-based technologies.

FACTS & DETAILS

Date : **Tuesday, June 16, 2026**

Location : **Busch Austria GmbH**, Businesspark 1, 2100 Korneuburg, Austria

Seminar : 09:30 – 19:00 ca. with **Lunch Break** + Visit of the Vacuum Technology Competence Centre
(Timetable is indicative and will be confirmed after the registration deadline.)

Social Dinner : **Monday, June 15, 2026, 19:00** kindly organised by **Busch Austria GmbH** at a traditional Austrian “Heuriger” in the Viennese outskirts. *(Exact venue details will be confirmed shortly. Please indicate your attendance for the social dinner during registration.)*

Conference Fee : **regular** → €130 & **ÖGV Members** → €97.50 (25% discount)

Annual Membership : **Only €15/year !** *(for individuals)*

Submit Abstracts & Questions to : oegv@iap.tuwien.ac.at

→ Abstract style guideline : PDF file (max. 200 words, 11pt, Arial/Helvetica font, A4, w/wo image, 1-page)

Abstract Submission & Registration Deadline :

>>> May 25, 2026 <<<

ÖGV partners :

Kurt J. Lesker
Company

Your Partner in Vacuum Technology and Electron Microscopy.
